## WHAT IS SAPOLIO.

It is a solid, handsome cake of Scouring Soap, which has no equal for all scouring purposes except the laundry. To use it is to value it.

**What Will Sapolio Do?** Why, it will clean paint, make oilcloths bright, and give the floors, tables and shelves a new appearance. It will take the grease off the dishes and off the pots and pans. You can scour the knives and forks with it, and make the tin things shine brightly. The wash basin, the bath tub, even the greasy kitchen sink, will be as clean as a new pin if you use Sapolio. One cake will prove all we say. Be a clever little housekeeper and try it. **Beware of Imitations!** There is but one Sapolio.

## REAL ECONOMY.

It is worse than nonsense to buy a cheap article with which to damage more valuable property. Scouring Soap is at best only a trifling expense, but with a poor and cheap article it is likely to do considerable damage to fine marble or other property.

For many years **SAPOLIO** has stood as the finest and best article of this kind in the world. It knows no equal, and although it costs a trifle more, its durability makes it outlast two cakes of cheap make. Is it therefore the cheapest in the end. Any grocer will supply it at a reasonable price.
